USAID'S MUNICIPAL CLIMATE CHANGE STRATEGIES PROJECT
SEEKS
CSO's AND MUNICIPALITIES

Milieukontakt Macedonia works towards developing sustainable society, through developing a strong and democratically organized environmental civil society movement in Macedonia.

Currently Milieukontakt Macedonia is carrying out the USAID funded project '*Municipal Climate Change Strategies*' which will be implemented in the coming two years.

For this project Milieukontakt Macedonia is looking for CSO's and partner municipalities that are willing to participate in the implementation of project activities and development of municipal climate change strategies.

If you are a CSO which meets the following criteria:

- are legally registered for at least 1 year;
- have access to premises and necessary equipment for managing daily activities and actions;
- have staff, members or activists that can be mobilized for implementation of local actions;
- can clearly demonstrate history of implementing partnership projects, proved by at least one partnership activity implemented in the past 1 year.
- has participated in development of local sustainable development plans, for example LEAP, Local Agenda 21, etc.
- can propose an Experienced Local Coordinator within the CSO with at least two years of relevant experience in project management and implementation.

... and if you implement your activities in a municipality that:

- is located in a climate change vulnerable region or has been impacted by climate change in the past;
- is experienced in implementation of participative processes, like Local agenda 21, LEAP, Local Economic Development planning, etc.;
- is open and willing to cooperate with the civil sector and local businesses and is ready to invest in protection of the environment and promotion of sustainable development;
- can clearly show commitment to the project implementation and can demonstrate willingness to actively participate in the project activities;
- is ready to earmarking funds for implementation of pilot projects;
- is located outside of major urban settlements.
